

A-Level Geography preparation

Task 1

1. Our first topic is Hazards. Consider what is meant by the terms 'hazard' and 'disaster'.
2. Compile a list of hazards.
3. For each of those hazards, find an example from the last 5 years that you could use as a case study.

Task 2

As you know, Geography is everywhere!...Over the holidays, keep a file of any current news stories that relate to Geography (physical and human) - this can be a physical file with newspaper articles or a list of URLs, or an online collection of websites, stories etc
